

The End of COVID

FINALLY, THE SHOW IS OVER

The End of COVID is exactly what it sounds like.

For the first time ever, we're coming together to educate the public on a mass scale.
We'll cover everything you need to know about what's transpired over the past 3 years.
And so much more.

With 80 sessions, we're covering everything from electron microscopy to masks.
We're going all the way back to Bechamp vs. Pasteur,
And touching on every so-called "pandemic" - up to the present.

By doing this, we can prevent it from happening again in the future.
By bringing the granular details of these concepts to the masses,
We can put an end to the fictional reality show once and for all.

On June 20th - finally, the show is over.
