JULIAN HUXLEY

The lowest strata are reproducing too fast. Therefore... they must not have too easy access to relief or hospital treatment lest the removal of the last check on natural selection should make it too easy for children to be produced or to survive; long unemployment should be a ground for sterilisation.

— *Julian Huxley* —

AZ QUOTES

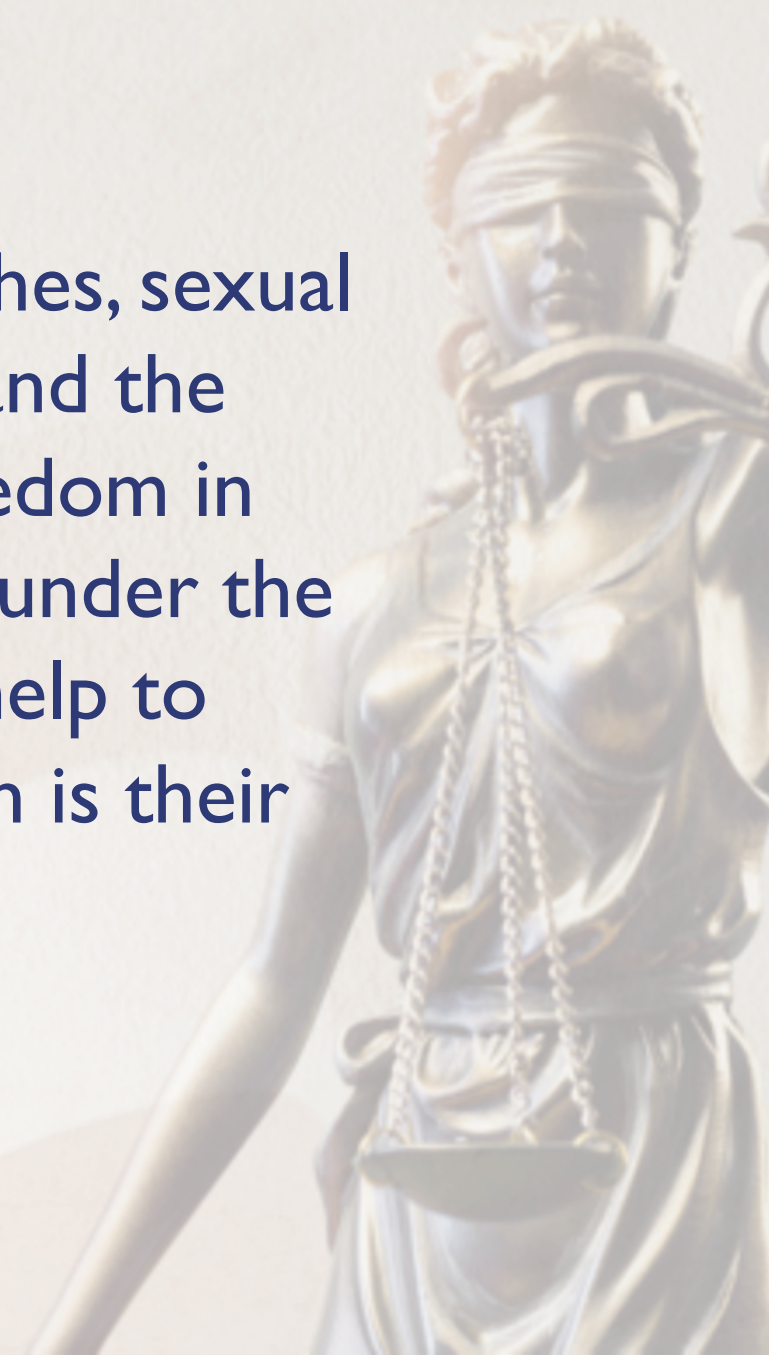

JULIAN HUXLEY

“The implications of the transfer of full sovereignty from separate nations to a World Organization...Political unification in some sort of World Government will be required...”

Even though...any radical eugenic policy will be for many years politically and psychologically impossible, with the greatest care, and that the public mind is informed of the issues at stake so that much that now is unthinkable may at least become thinkable.”

JULIAN HUXLEY

“As political and economic freedom diminishes, sexual freedom tends to compensatingly increase and the dictator... will do well to encourage that freedom in conjunction with the freedom to daydream under the influence of dope, movies, and radio. It will help to reconcile his subjects to the servitude which is their fate.”

JULIAN HUXLEY

“I suppose the reason we leaped at The Origin of Species was because the idea of God interfered with our sexual mores.”

**THAT'S THE PLAN –
BUT THEY WON'T WIN**

HealthFreedomDefense.org

MARCIA ANGELL, MD FORMER EDITOR OF NEJM FOR 20 YEARS

“It is simply no longer possible to believe much of the clinical research that is published, or to rely on the judgment of trusted physicians or authoritative medical guidelines. I take no pleasure in this conclusion, which I reached slowly and reluctantly over my two decades as an editor of *The New England Journal of Medicine*.”

RICHARD HORTON, MD

EDITOR OF THE LANCET

“The case against science is straightforward: much of the scientific literature, perhaps half, may simply be untrue. Afflicted by studies with small sample sizes, tiny effects, invalid exploratory analyses, and flagrant conflicts of interest, together with an obsession for pursuing fashionable trends of dubious importance, science has taken a turn towards darkness.”

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

SUMMARY OF TERRORISM THREAT TO THE U.S. HOMELAND – 07 FEBRUARY 2022

The United States remains in a heightened threat environment fueled by several factors, including an online environment filled with false or misleading narratives and conspiracy theories, and other forms of mis- dis- and mal-information² (MDM) introduced and/or amplified by foreign and domestic threat actors.

These threat actors seek to exacerbate societal friction to sow discord and undermine public trust in government institutions to encourage unrest, which could potentially inspire acts of violence. Mass casualty attacks and other acts of targeted violence conducted by lone offenders and small groups acting in furtherance of ideological beliefs and/or personal grievances pose an ongoing threat to the nation.

For example, there is widespread online proliferation of false or misleading narratives regarding unsubstantiated widespread election fraud and COVID-19

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

(U) Domestic Violent Extremism Poses Heightened Threat in 2021

01 March 2021

(U) The IC assesses that domestic violent extremists (DVEs) who are motivated by a range of ideologies and galvanized by recent political and societal events in the United States pose an elevated threat to the Homeland in 2021.

Enduring DVE motivations pertaining to biases against minority populations and perceived government overreach will almost certainly continue to drive DVE radicalization and mobilization to violence.

Newer sociopolitical developments—such as narratives of fraud in the recent general election, the emboldening impact of the violent breach of the US Capitol, conditions related to the COVID-19 pandemic, and conspiracy theories promoting violence—will almost certainly spur some DVEs to try to engage in violence this year.
