

The Biofield and Terrain Theory

An Introduction to Biofield Tuning and the Electric Health Model

with Eileen McKusick

May 2023

BIOFIELD TUNING

ELECTRIC

BIOFIELD TUNING
INSTITUTE

Did you know there is a 4th state of matter called
PLASMA?

Carol Herbert

And another one called Aether?

Our Electric Environment

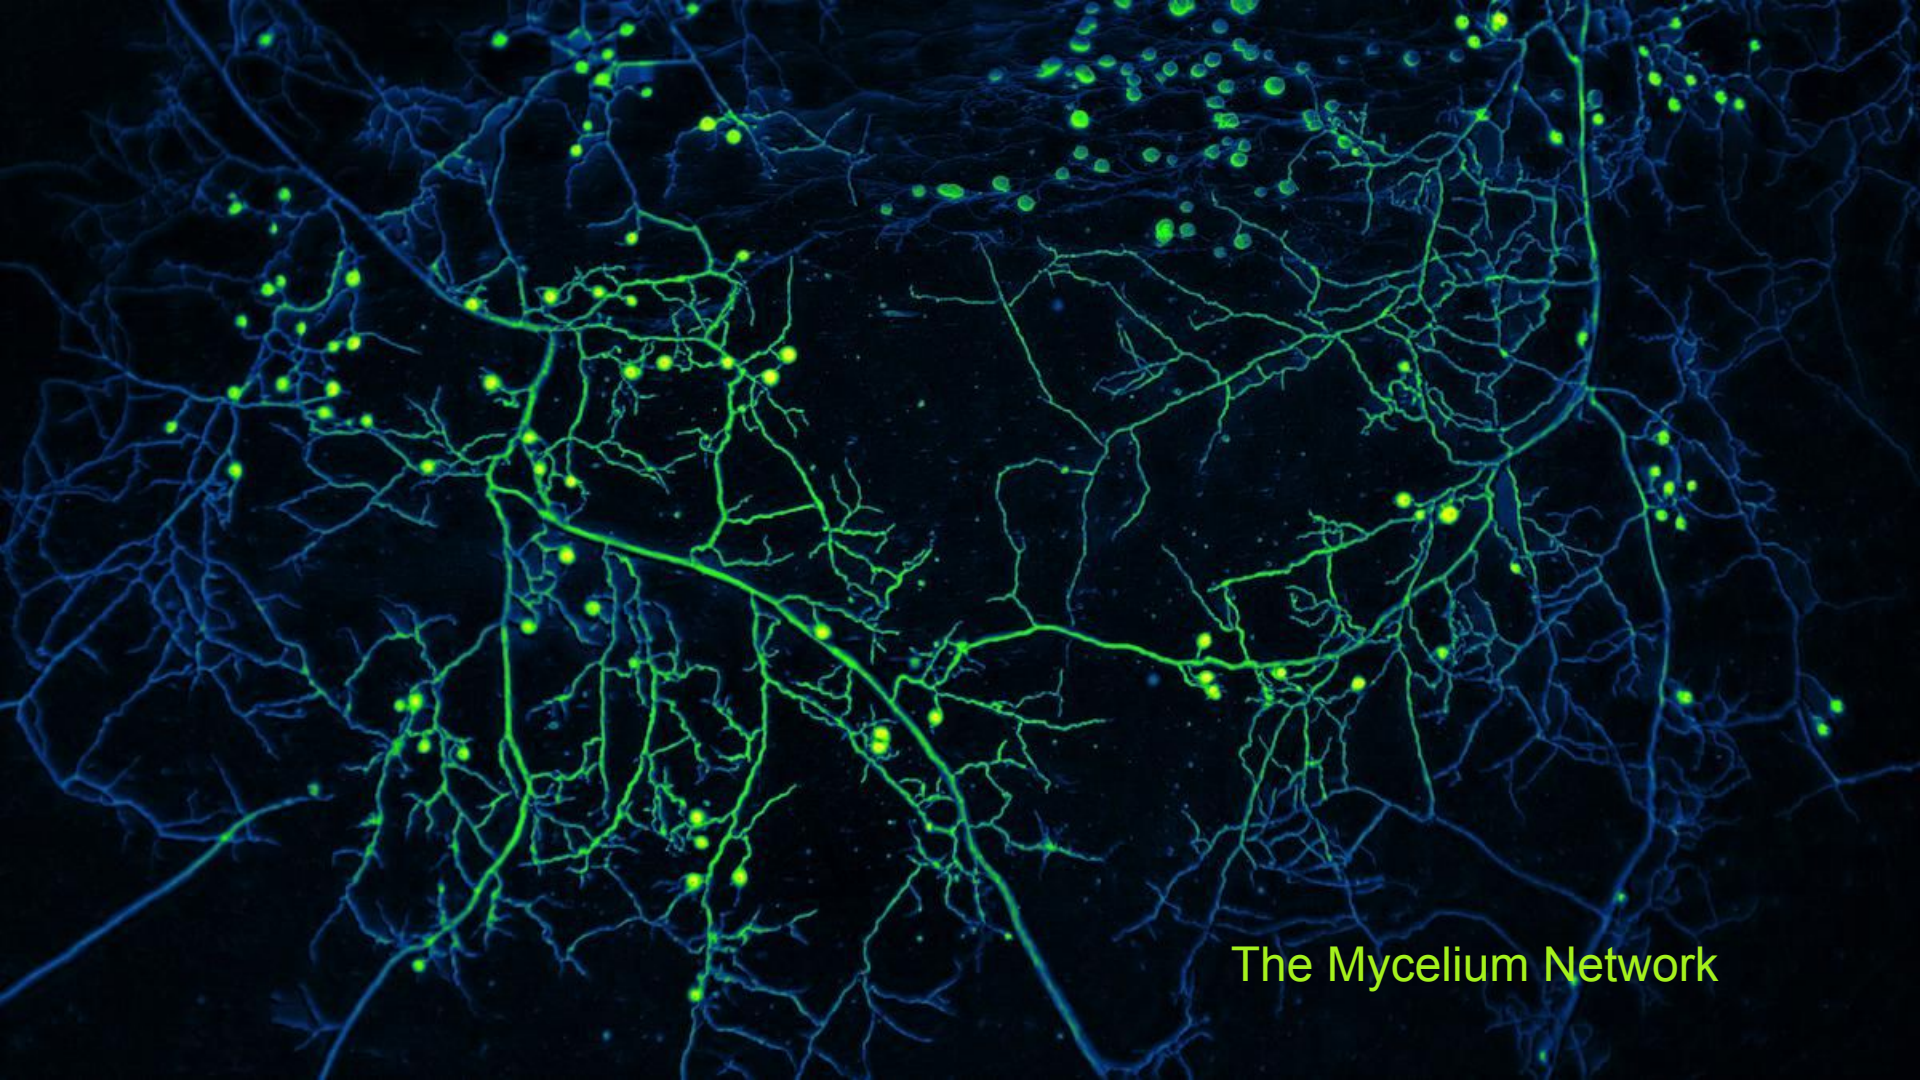

Ionized Air

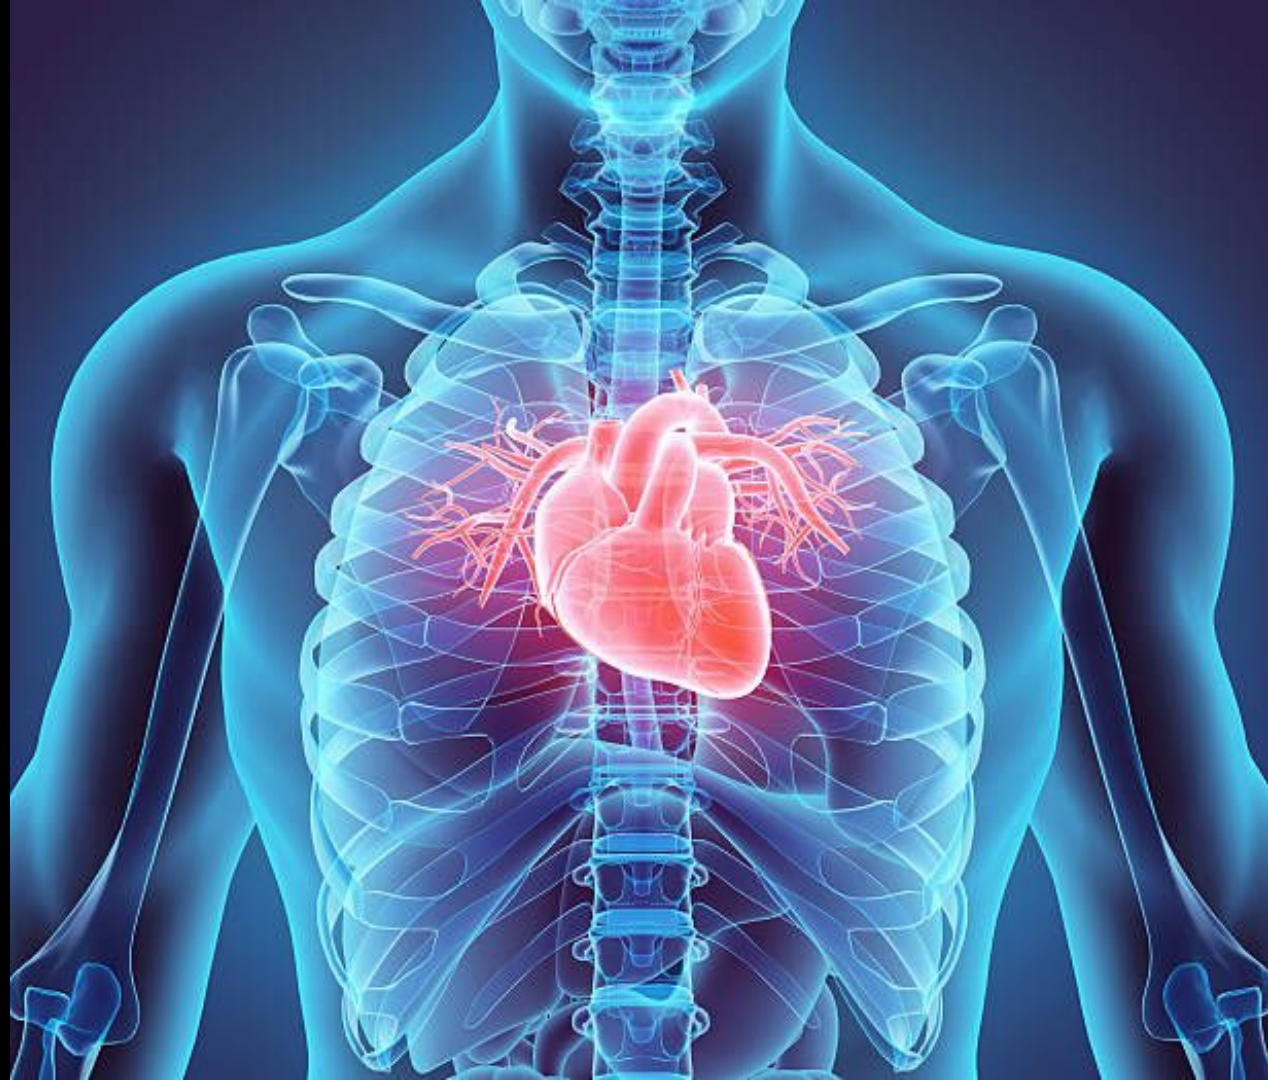

The Mycelium Network

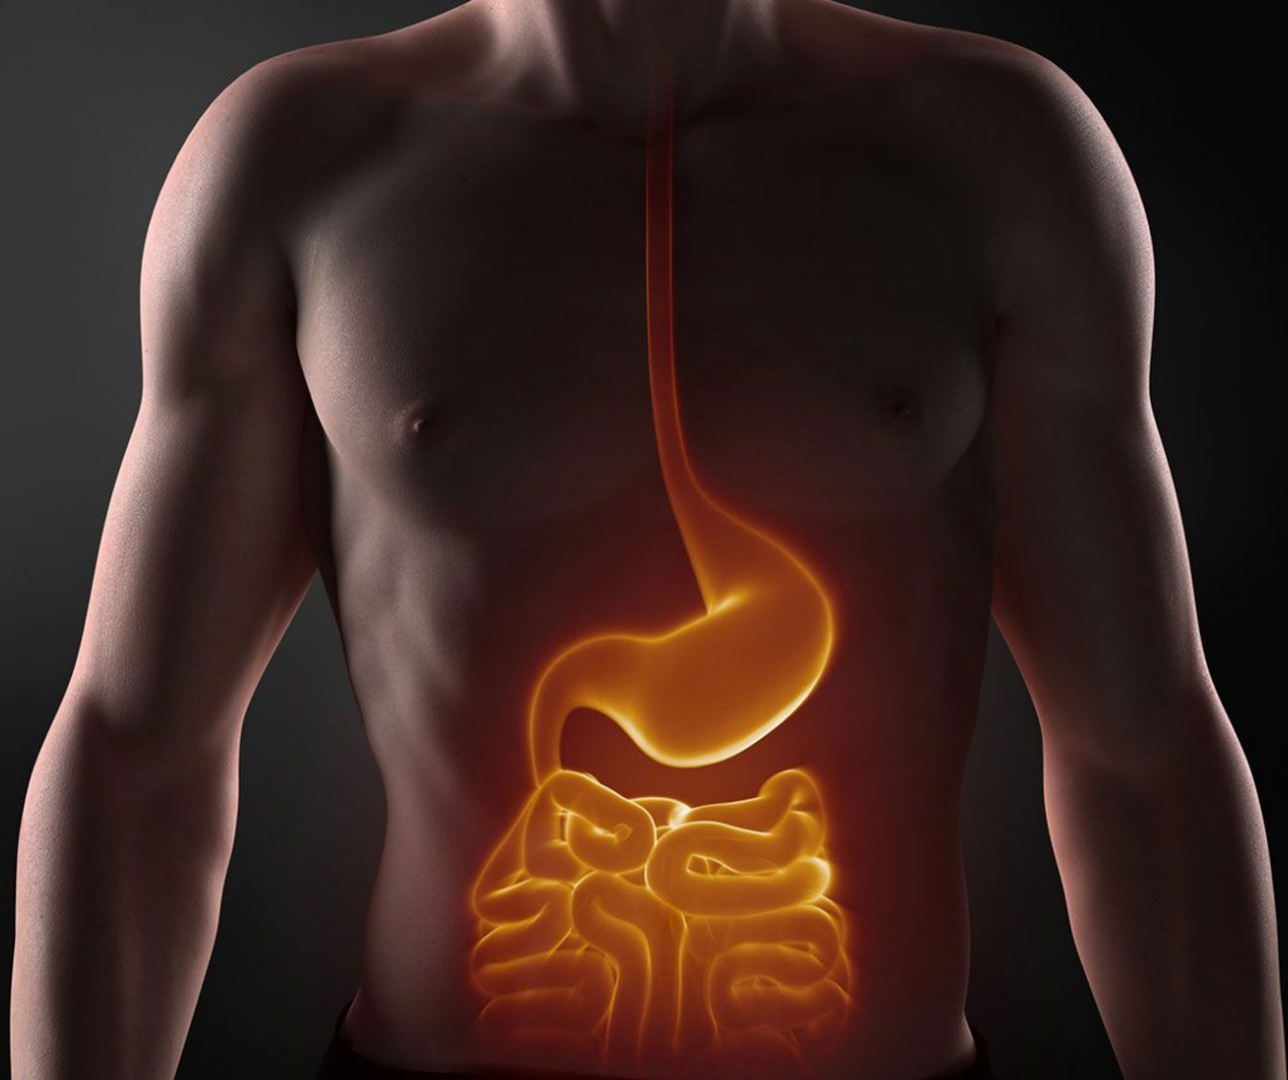

We are all ELECTRIC creatures.

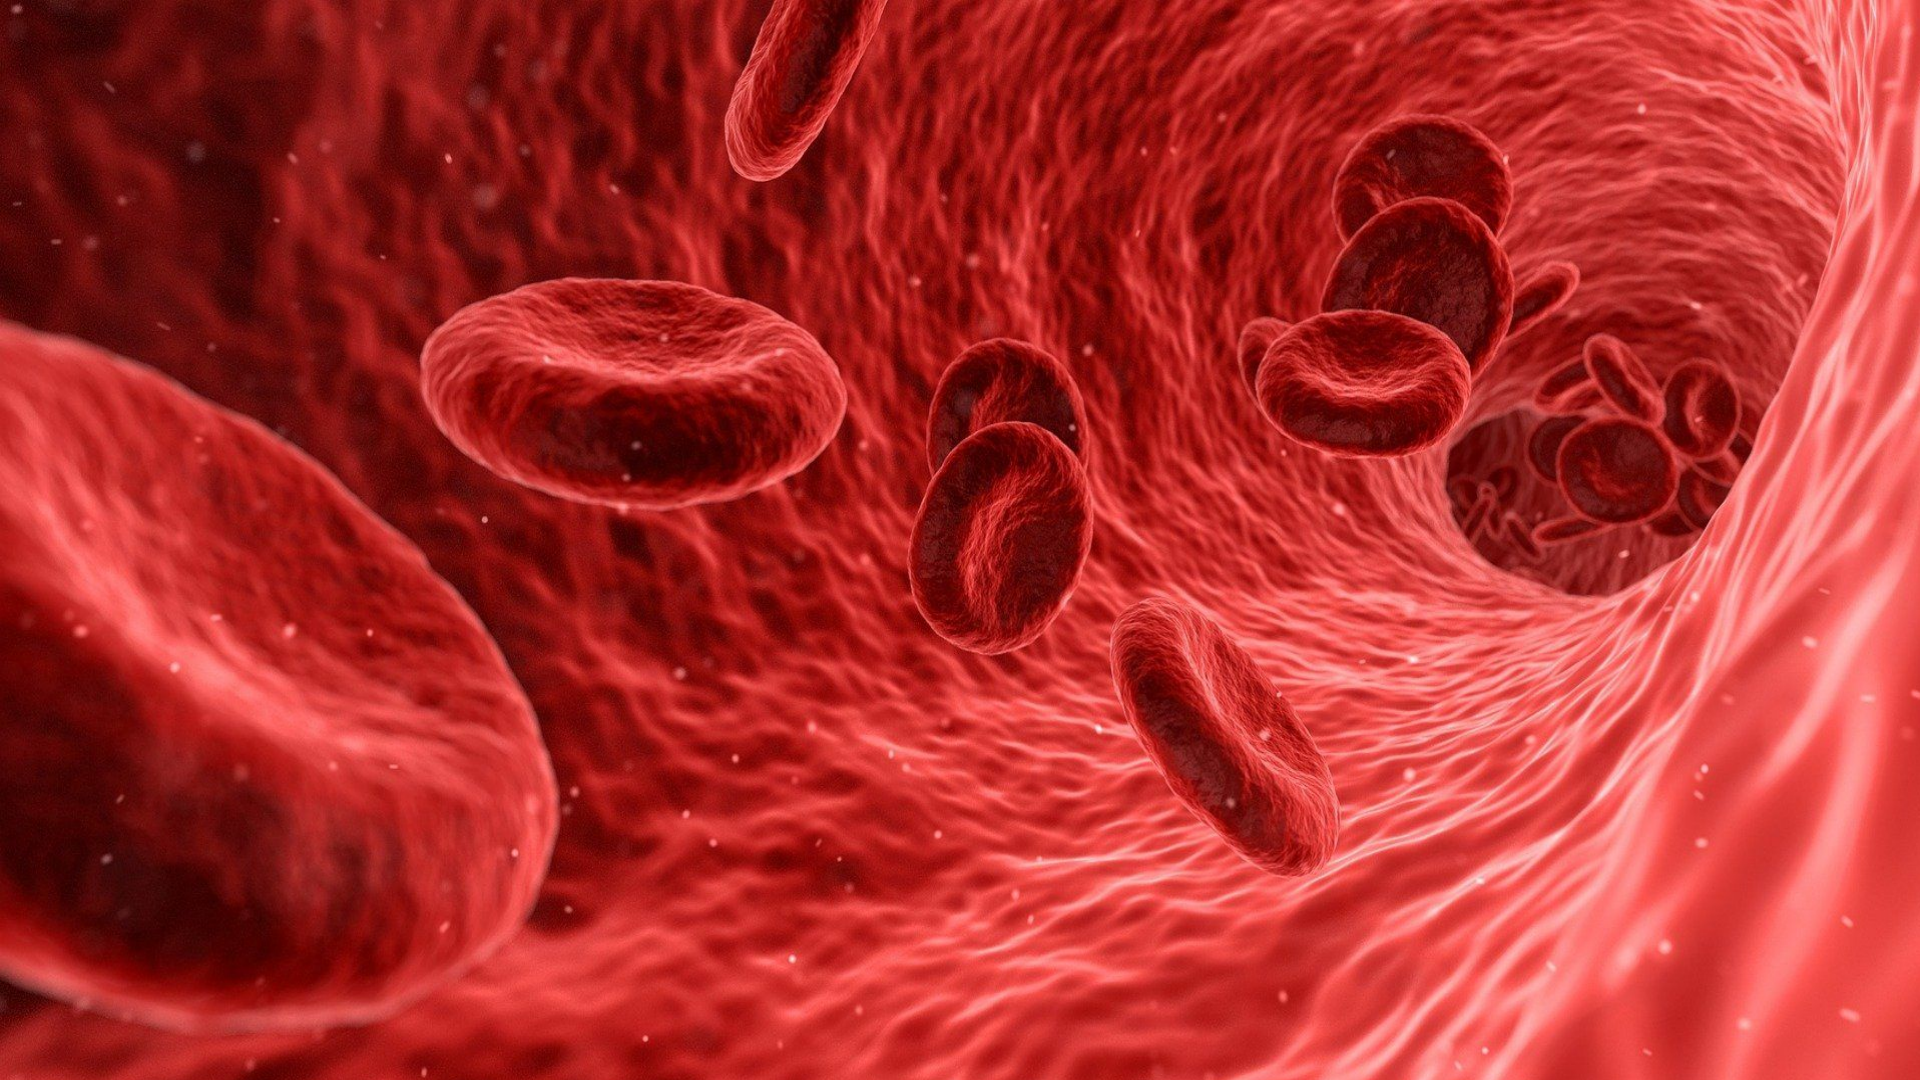

**The Uncreated Universe is Light Undivided.
The Created Universe is Light Divided into Mated Pairs.
- Dr. Walter Russell**

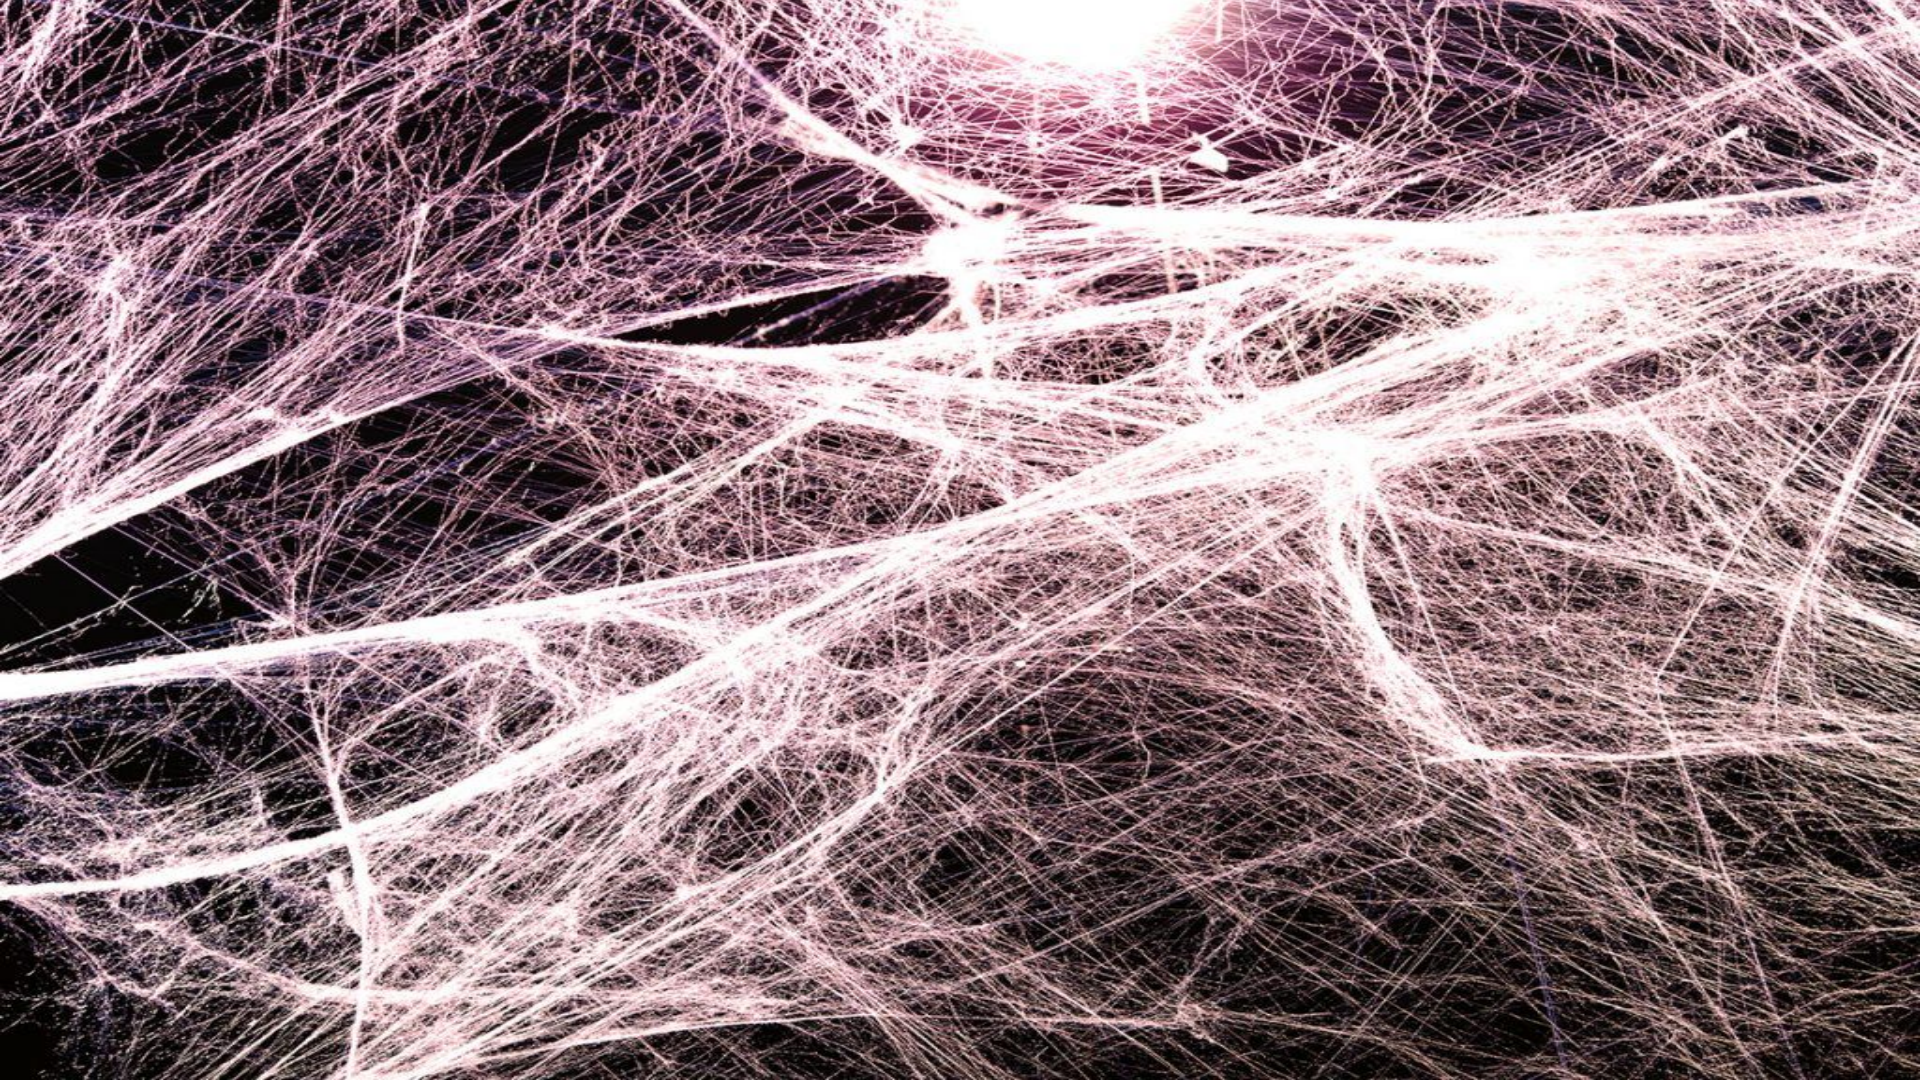

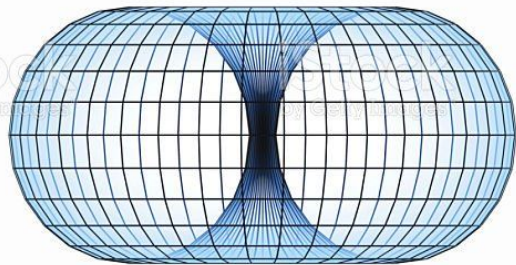

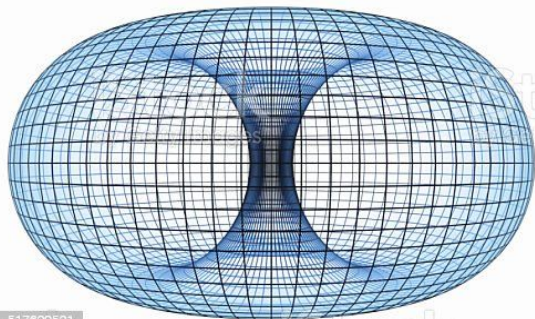

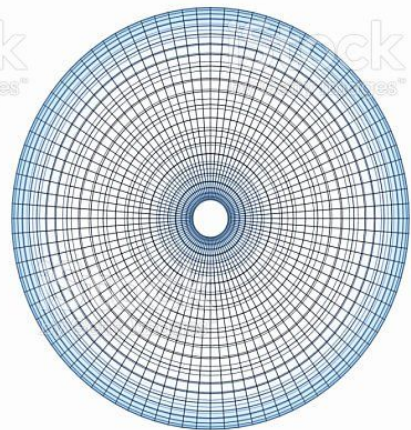

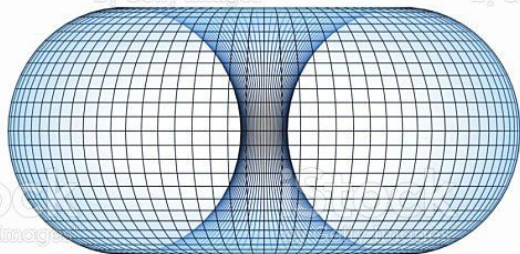

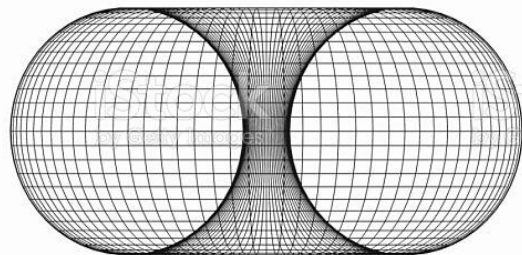

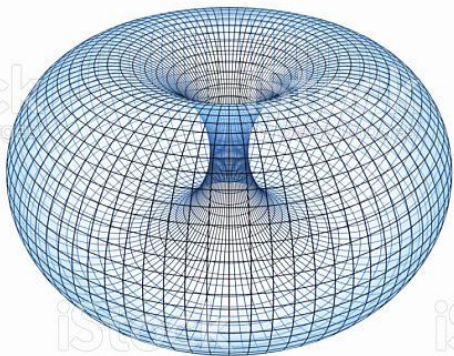

We are connected through Aether and Plasma to
ALL THAT IS - ALL ONE LIGHT

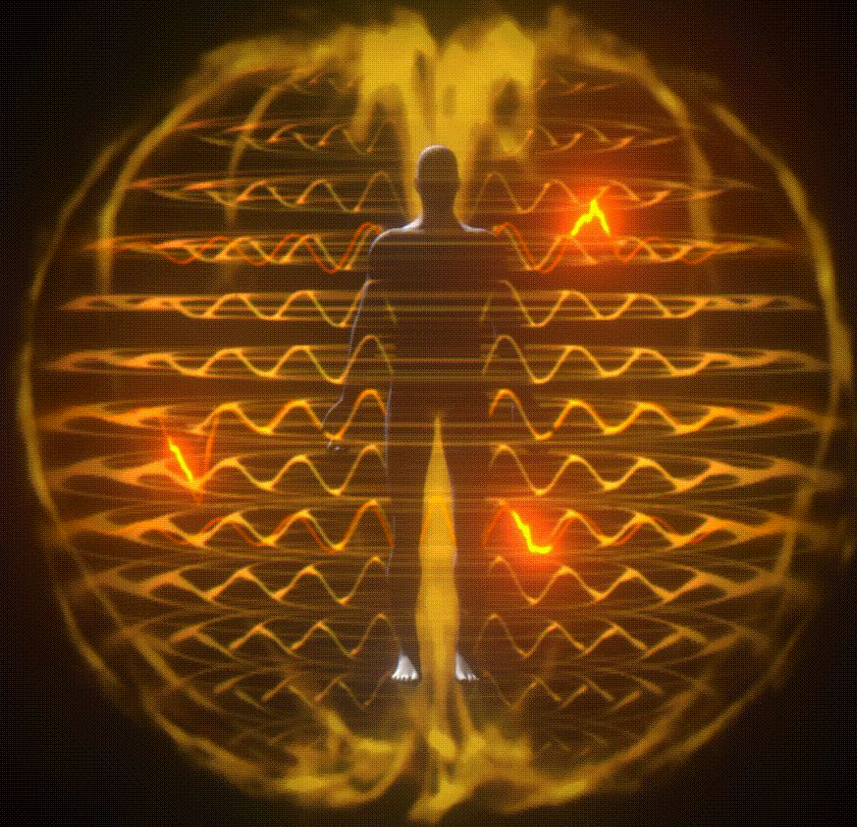

What exactly is our circuitry and how do we rewire it?

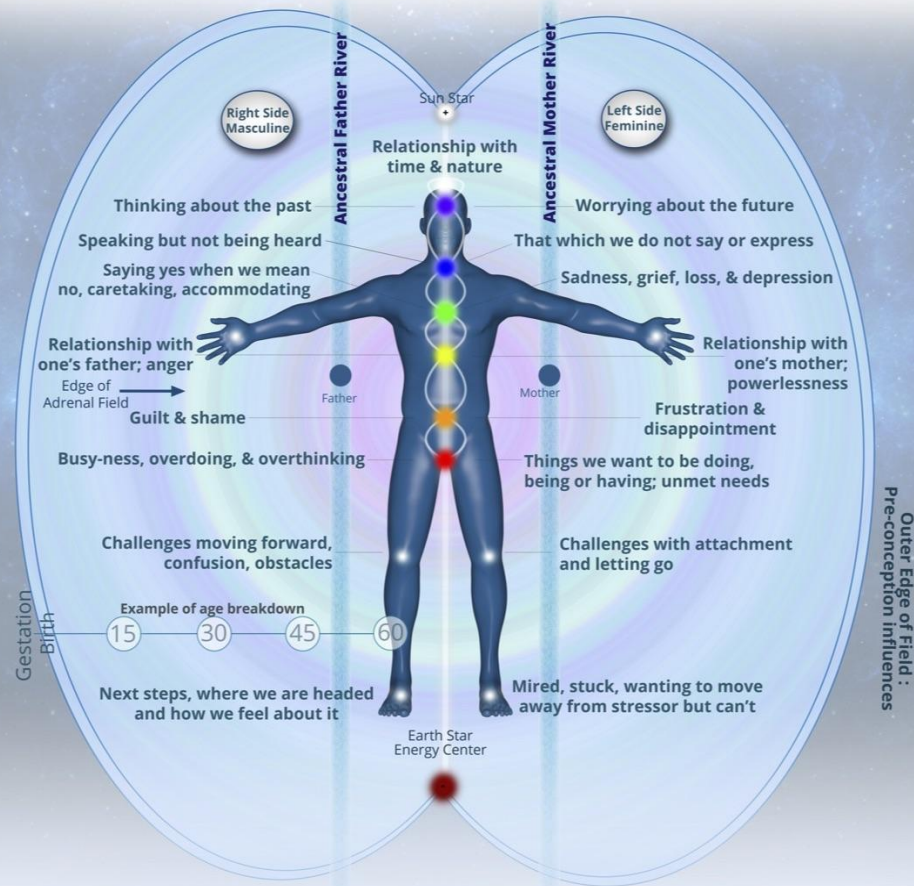

How does trauma impact our electrical system?

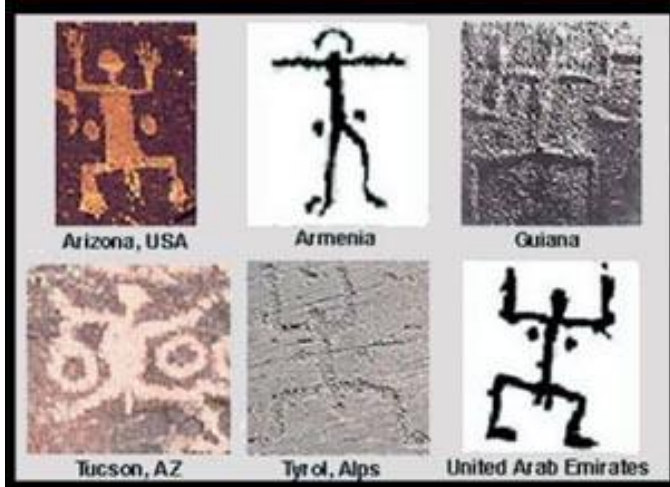

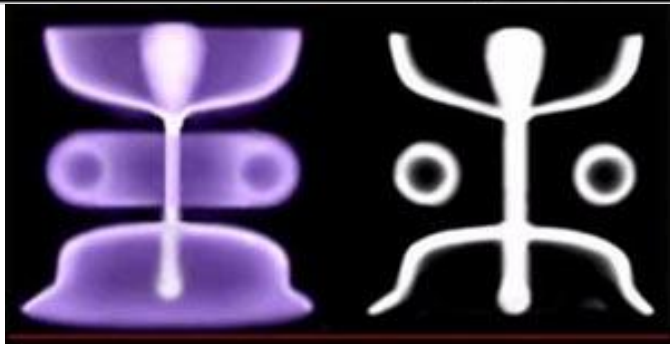

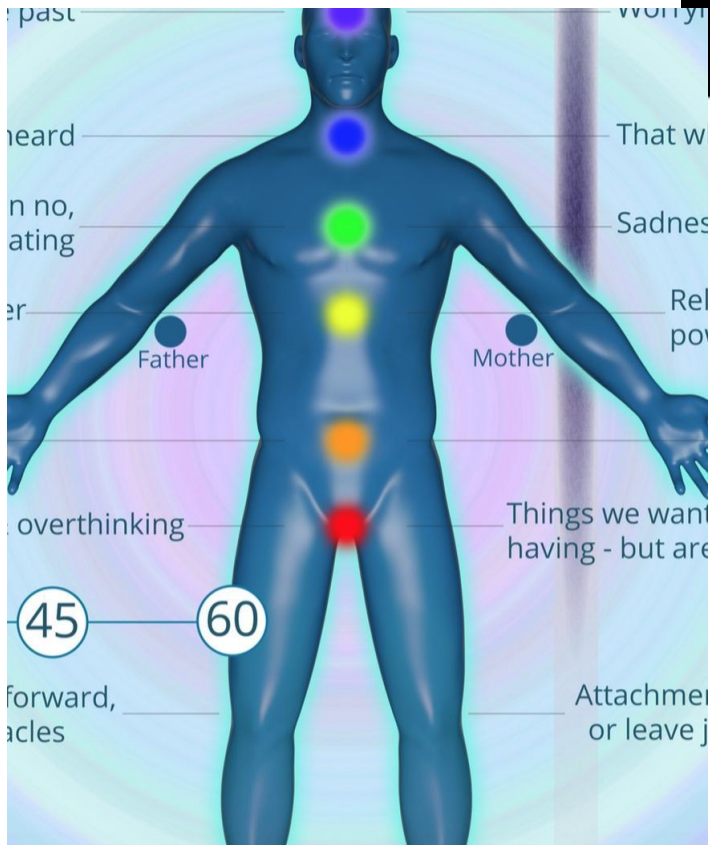

What is inflammation from an electric health perspective?

Biofield Anatomy

Significance of Energetic Imbalances

CLINICAL BENEFITS

OBSERVED OVER THE LAST 25+ YEARS

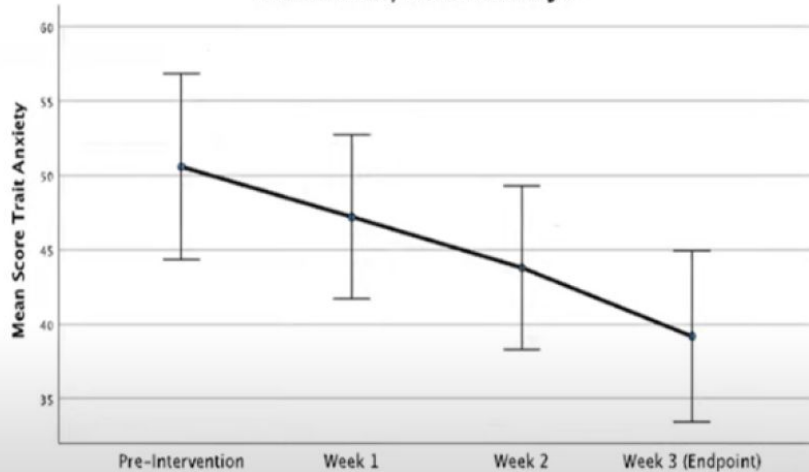

- *Increased creativity & resourcefulness*
- *Improved athletic performance & stamina*
- *Improved focus*
- *General relaxation*
- *Relief from PTSD symptoms*
- *Reduction/elimination of pain*
- *Faster recovery from injuries*
- *Diminished anxiety*
- *Elimination of fears and phobias*
- *Improved emotional balance*

ANXIETY RESEARCH STUDY

ANXIETY RESULTS - TRAIT

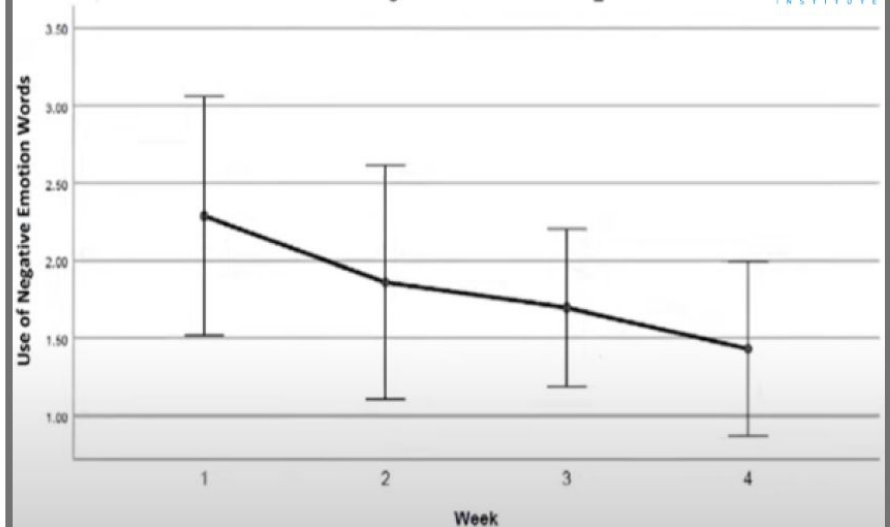

STAI Trait Anxiety Intervention Changes

Our recent study on anxiety (currently under peer review) demonstrated that all participants experienced significant drops in their anxiety after just 3 Biofield Tuning sessions - one hour a week for 3 consecutive weeks.

CHANGE IN SPOKEN LANGUAGE (NEGATIVE EMOTION WORDS)

Participants also exhibited a significant drop in the use of “negative emotion words” while providing a voice note response the text question, “How is your day going”? All expressed that they overall felt calmer and better able to handle everyday stressors.

Eileen's Assertion: Sound is Part of the Electromagnetic Spectrum

Even though we are told it is not

We are told that light doesn't need a medium to travel through, but sound does

The aether has been replaced by the vacuum in the "official story"

But the aether has never gone away

All waves move through the dielectric aether and are therefore electromagnetic

All propagating frequencies are part of the electromagnetic spectrum

We are told sound is longitudinal

But it is always represented as a sine wave

Actually it is both and more!

Sound produces longitudinal, transverse and scalar waves

Sound waves propagate:

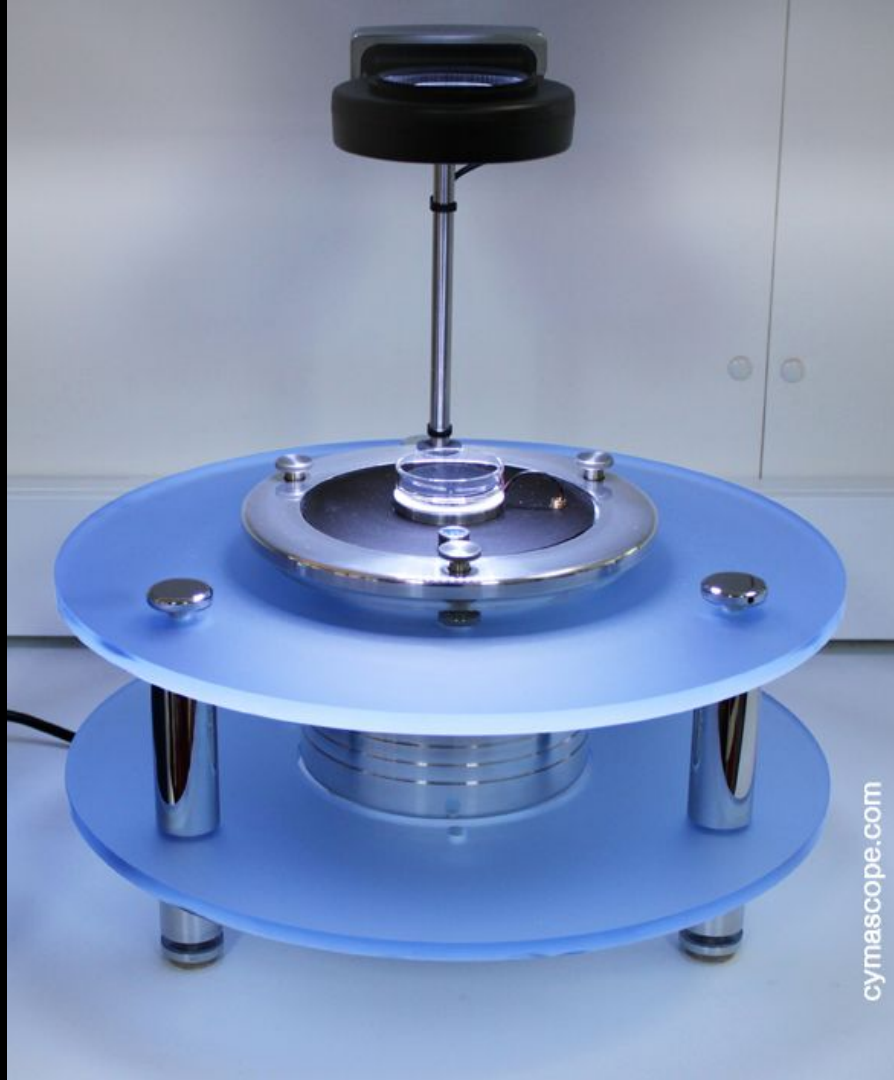

Spirally

Spherically

And contain complex geometric information

Cymatics

the study of wave
forms made visible

And so do Tuning Forks

and every instrument!

Tuning forks act as a MIRROR, METRONOME and MAGNET

With the physics principles of RESONANCE AND ENTRAINMENT

Applying forks with ATTENTION and INTENTION makes them an extension of our own MINDS

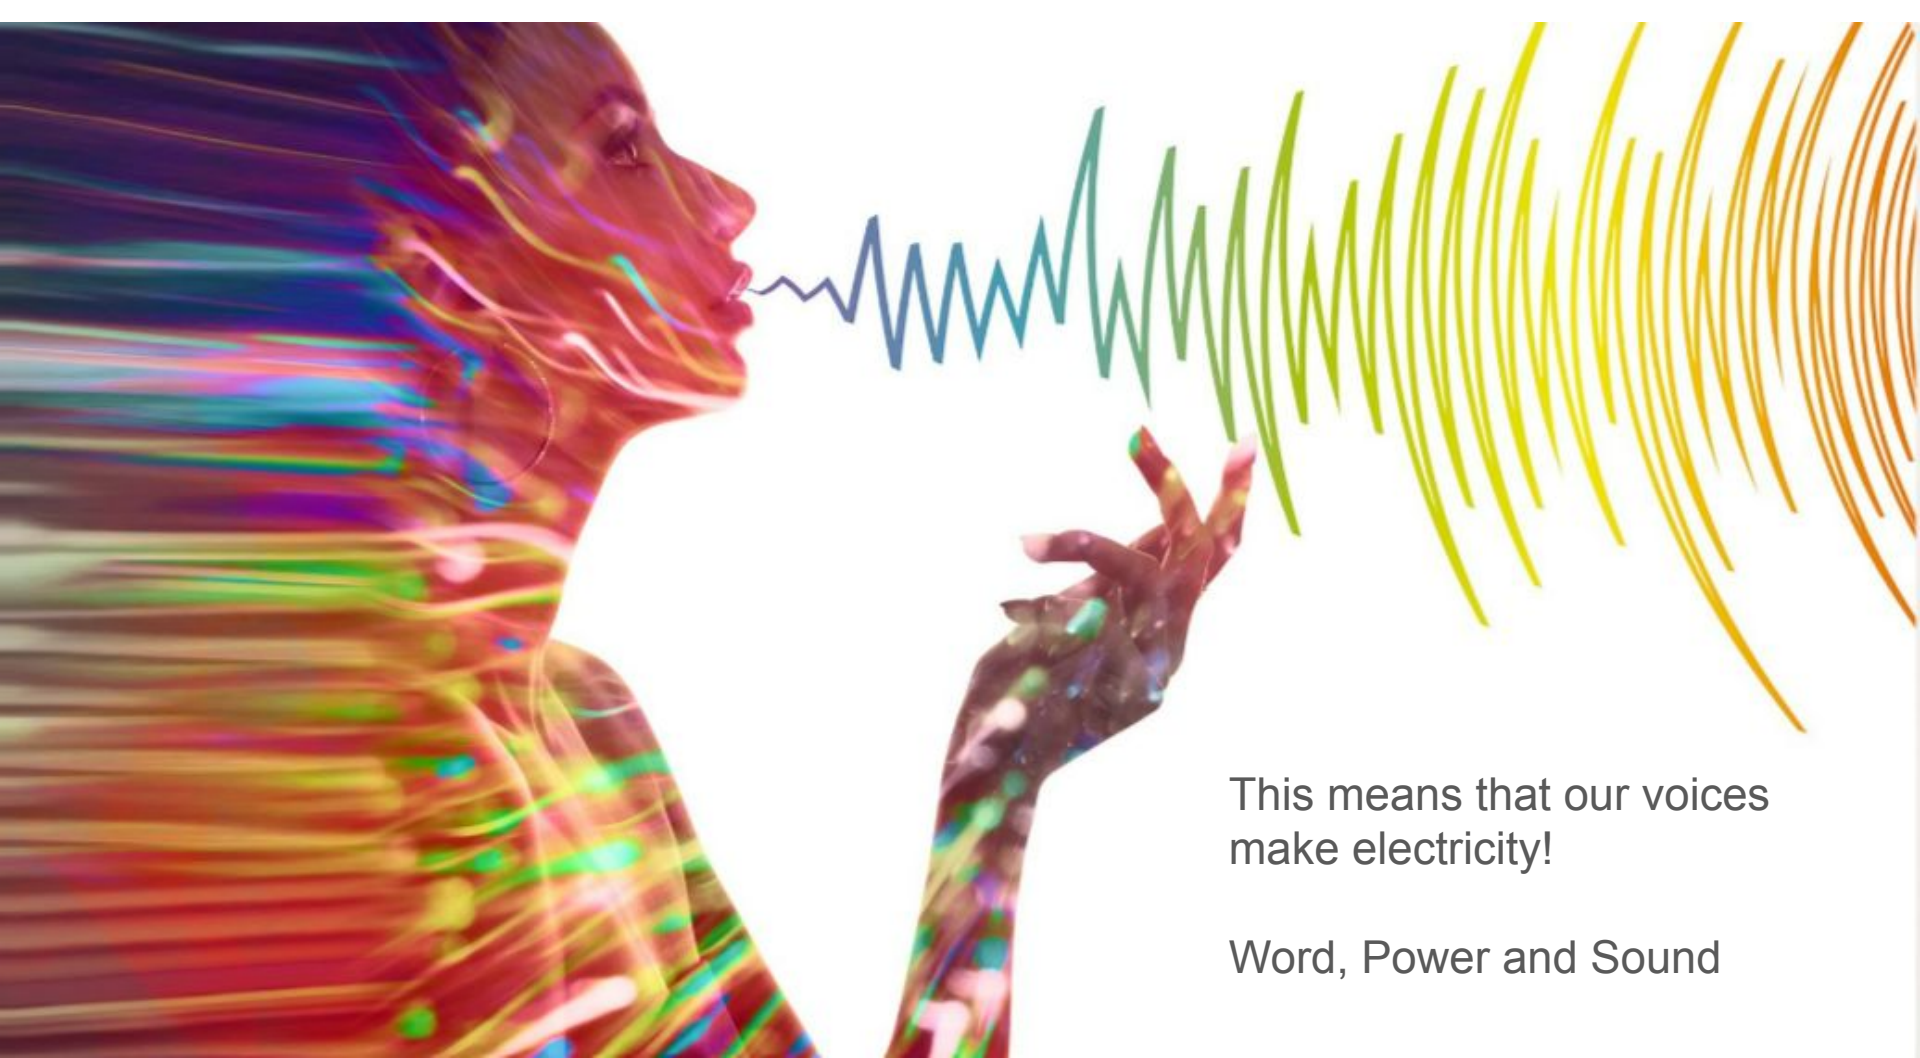

Our bodies are SELF TUNING INSTRUMENTS designed for HARMONY

Sound engages SYNTROPY and LEVITY

soundmadevisible®
CORPORATION, LLC

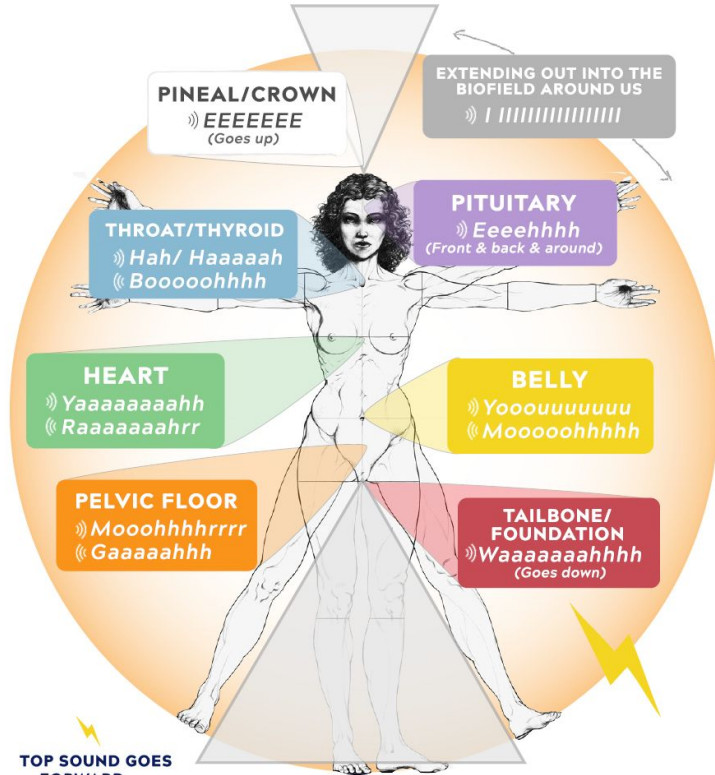

This means that our voices
make electricity!

Word, Power and Sound

SONIC ANATOMY TONES

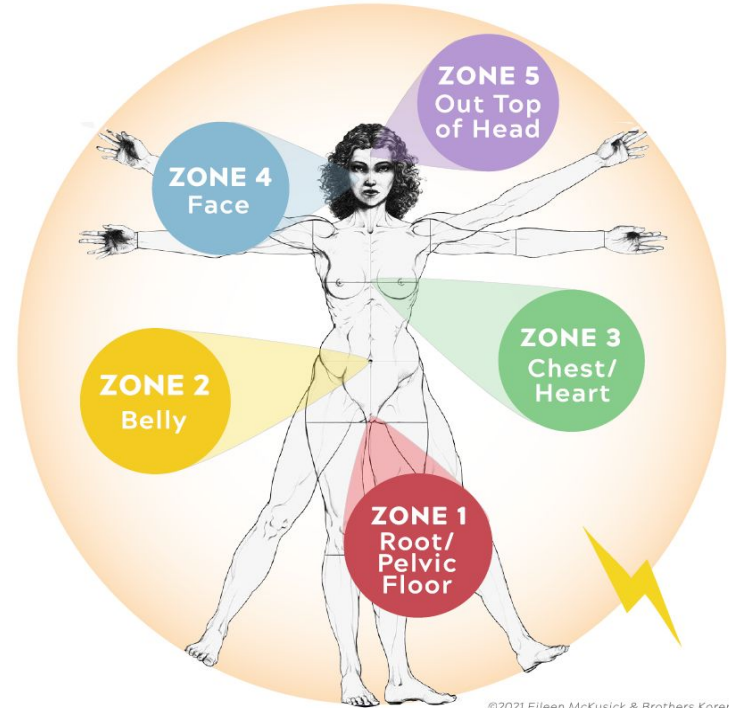

TOP SOUND GOES FORWARD
BOTTOM SOUND GOES BACKWARDS

©2021 Eileen McKusick & Brothers Koren

SONIC ANATOMY RESONANT ZONES

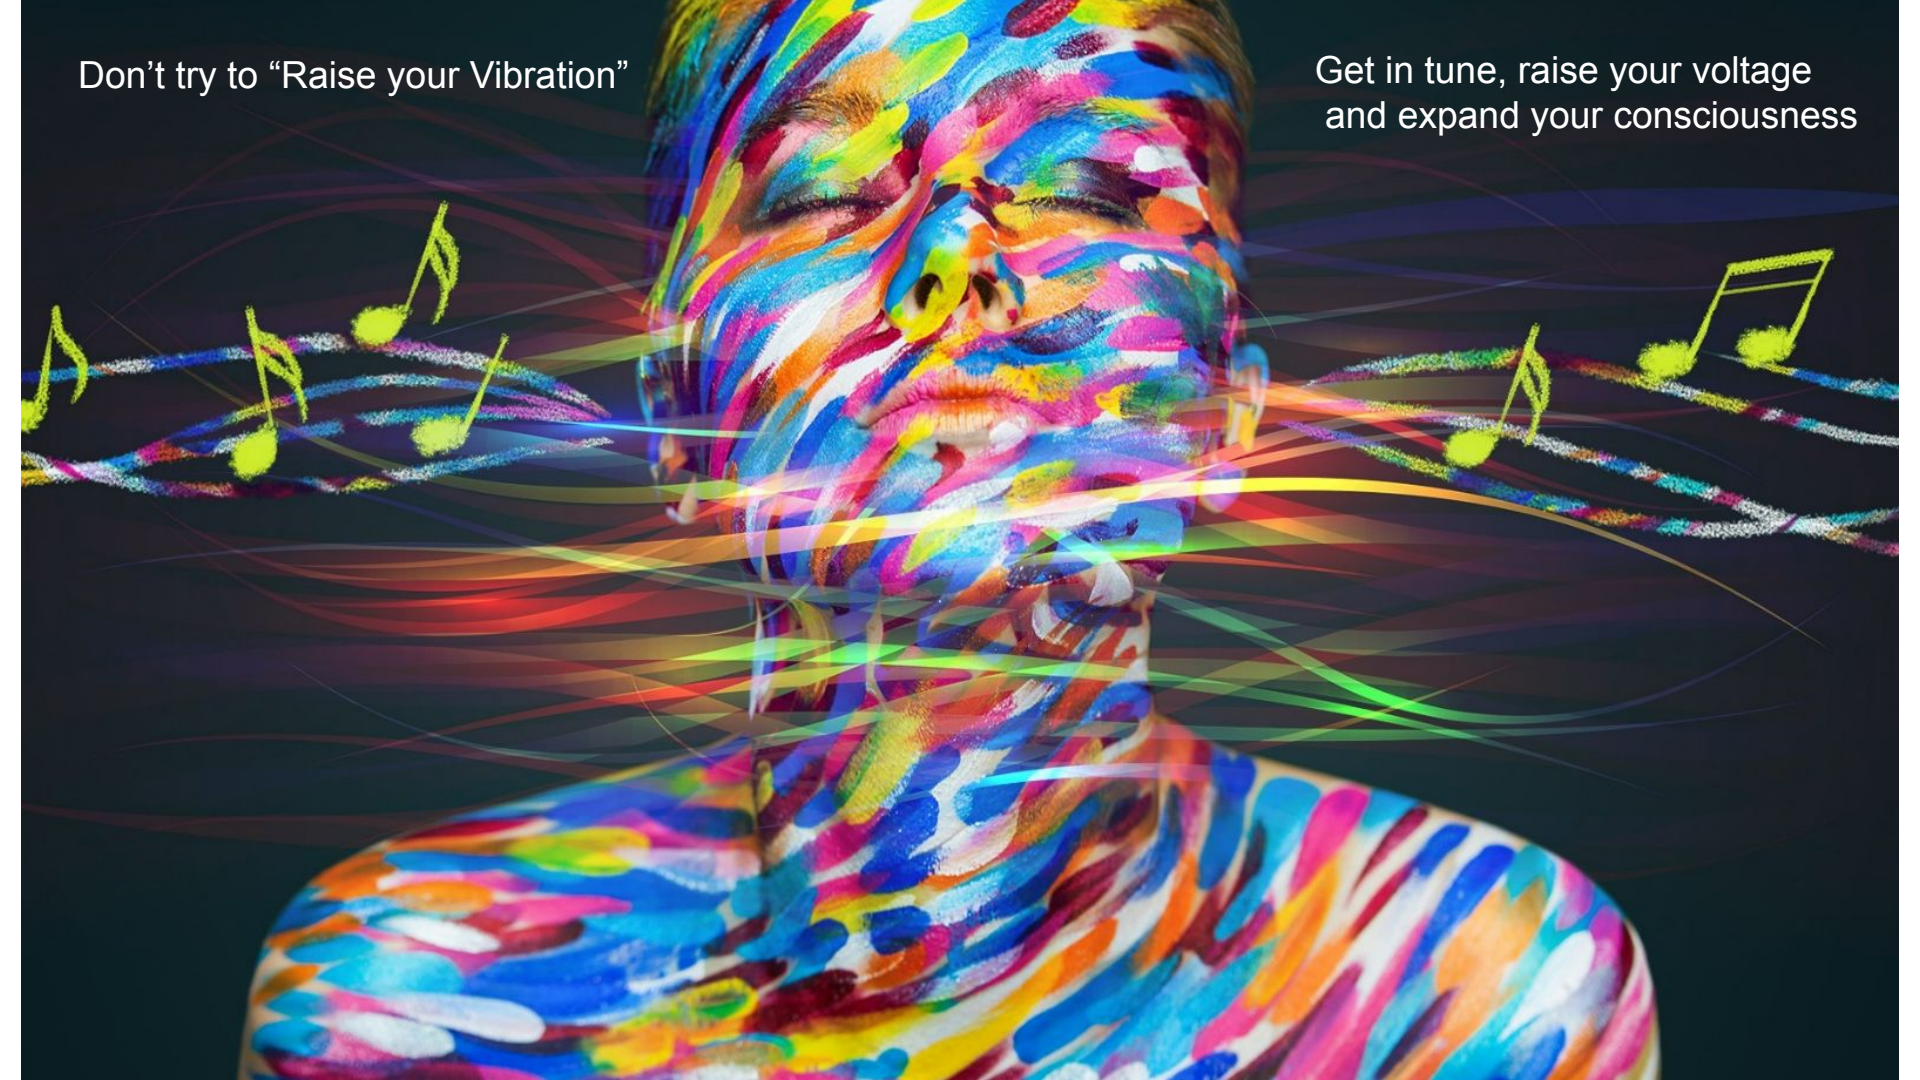

©2021 Eileen McKusick & Brothers Koren

1. FOUNDATION ZONE - low speaking tone
2. POWER ZONE - squeezing from the belly
3. RECEPTIVE ZONE - softening in the heart
4. EXPLORATIVE ZONE - playing through the face
5. PROJECTIVE ZONE - opening through the top of the head voice

⚡ Experiment with bringing each tone through each zone

Don't try to "Raise your Vibration"

Get in tune, raise your voltage
and expand your consciousness
